## EXPERIENCE

**Web Developer, The Digital Ring, Madison, WI — September 2020 - May 2022**

Designed and built a custom e-commerce WordPress website. Read wireframes with Adobe XD. Built Backend PHP framework for the design of the wireframe. Worked with WYSIWYG editors and react sites. Worked with child themes and plugins through WordPress. Designed and built plugins to fit the scope. Used PHP, Javascript, CSS/SCSS, JQuery, Bootstrap, Tailwind, MySQL, React, and GULP daily. Worked with Source Tree, Git Bash, and Bitbucket for versioning themes and scripts. Used Wrike and Slack for team meetings and time tracking. Troubleshoot problems or downed sites. Created custom JQuery scripts to make sites ADA compliant. Worked with Flywheel as a host for the sites. Ran GT Metrics and corrected problems.

**Web Developer, Beyond Private Label, Pewaukee, WI — June 2018 - April 2020**

Designed and built a custom WordPress website. Read wireframes and built custom js scripts. Built Backend PHP framework for the design of the wireframe. Worked with WYSIWYG editors and ECommerce sites. Cropped photos and logos to fit the wireframe. Designed and created logo designs in photoshop. Worked with child themes and plugins through WordPress and altered plugins to fit the scope. Used PHP, Javascript, CSS, JQuery, Bootstrap daily. Worked with Source Tree, Git Bash, and Bitbucket for versioning themes and scripts. Troubleshoot problems or downed sites. Created custom JQuery scripts to make sites ADA compliant. Worked with WP Engine as a host for the sites.

**Data Analyst/Project Manager Asst., OnCourse Data Services, Milwaukee, WI — Jan 2017 - May 2018**

Processed medical claim files into a medically compliant format. Troubleshoot programs that run OnCourse's automated process. Repaired legendary systems. Run quality control on medical claim files. Managed virtual machines and EDI databases. Work with customers and vendors of OnCourse. Worked with the project manager to set up new and improved systems. Trained new and old colleagues on new systems and procedures. Wrote detailed documentation for new and legendary systems for training purposes.

**Web Solutions/Help Desk, The UPS Store**
**Hales Corners, WI — Sept 2011 - Jan 2017**

Helped with technical issues and problems. Set up hardware and software. Trained employees on software. Created some in-house programs to help the company perform tasks.

**Projects**
- Assisted in setting up the in-house inventory system with reordering and database system capabilities.
- Created a Wide Format Print Calculator program
- Managed and developed a program to calculate, bill, and track printing projects
